PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with hands-on experience in **Python, SQL**, and **data analysis** concepts through internships and academic projects. Skilled in working with datasets, data visualization, backend data handling, and building data-driven applications using **Python libraries** and **databases**. Strong understanding of **data cleaning, problem-solving, reporting**, and machine learning fundamentals with the ability to derive meaningful insights from structured data. Passionate about analytics, business intelligence, and continuously learning modern data technologies.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Jayamukhi Institute of Technological Sciences | 2022 – 2026 | CGPA: 8.17/10

Telangana Board of Intermediate Education (PCM)

TSWR Junior College Jakaram | 2020 – 2022 | Percentage: 79.8%

Telangana Board of Secondary Education

TSWREIS Jakaram | 2019 – 2020 | Percentage: 98%

TECHNICAL SKILLS

Programming Languages: Python, SQL

Databases & Data Visualization: Pandas, Numpy, MySQL, MongoDB, Power BI, Excel

Tools & Platforms: Jupyter Notebook, Google Colab, Git, GitHub, VS Code

Core Concepts: Data Analysis, DBMS, Machine Learning Basics

WORK EXPERIENCE

Data Analyst Intern | Infotact Solutions

Feb 2026 – Apr 2026

- Analyzed and interpreted **5,000+ business records** using **Python, SQL, Pandas, and Excel** to generate actionable insights and support business decision-making.
- Built and maintained **interactive KPI dashboards and analytical reports** in **Excel and Python** to monitor trends, operational performance, and key business metrics.
- Performed **data cleaning, data transformation, exploratory data analysis (EDA), and data validation** to improve reporting accuracy by **20%**.
- Developed optimized **SQL queries** for data extraction, aggregation, filtering, and reporting from structured datasets and databases.
- Created **data visualizations, trend analysis reports, and performance summaries** using **Matplotlib** to identify patterns and improve reporting efficiency.

PROJECTS

Student Counselling Management System

Technologies: Python, Flask, HTML, CSS, JavaScript

- Developed a full-stack web application to streamline student counselling workflows and record management.
- Built backend services using **Flask** and implemented efficient data handling mechanisms.
- Developed authentication and dashboard modules to improve user experience and accessibility.
- Designed responsive frontend pages for managing counselling sessions and student information.

AI-Enabled Smart Home Security System

Technologies: Python, Machine Learning, Scikit-learn

- Developed an AI-based smart security system capable of monitoring and detecting suspicious activities.
- Applied **machine learning concepts** for intelligent detection and automated alert mechanisms.
- Worked with real-world datasets and implemented data preprocessing techniques for model improvement.
- Improved understanding of AI workflows, predictive models, and system integration concepts.

CERTIFICATIONS

- Python Programming Certification from Infosys Springboard
- Data Analytics Internship Completion Certificate from Infotact Solutions
